

McKEECO

GENERAL ENGINEERING PTY LTD

Vibrating Conveyors

McKEECO designs and manufactures vibrating conveyor systems.

Vibrating Conveyors can be supplied in all shapes and sizes for conveying a range of different materials.

Benefits of Vibrating Conveyors include:

- Low maintenance
- Low spillage of fines
- Controlled feeding & material alignment
- Heavy duty drive assemblies are fitted to all conveyors
- Optional screening section can be built in for separation of fines and sawdust
- Optional fibreglass section for metal detection can be built into conveyor

Twin counterpoise pan design to minimise dynamic forces exerted on foundations.
